

Goldberg Productions Presents

CASTING DIRECTOR RANDI RIEDIGER

ADR/DUBBING WORKSHOP

If you've watched foreign-made animation like **INUYASHA** or **NARUTO**, you might wonder how they do the English language. This is called **DUBBING** or **ADR**.

Automated Dialogue Replacement or Additional Dialogue Recording is the process of re-recording the dialogue. The voices of the original performers are often in a different language.

WHAT YOU WILL LEARN

How to watch the picture on the screen and sustain a character all at the same time!

You will do this in a studio setting and work with professional ADR actors.

You will also learn the art of recording crowd noises, which are used in all types of video entertainment.

It's one thing to have a face and a voice, but being able to act will prove very valuable.
